

What I see and hear on the way to school

Green-Schools Travel

Think of all the different things you see and hear when you walk to school.

Now draw pictures of all the different things you see in the empty boxes and write the sounds they make on the line. The first one has been done for you.

The illustration shows a winding road with a dashed center line, starting from a house on the left and ending at a school on the right. There are trees along the road. Several empty boxes and lines are provided for drawing and writing sounds.
