Cards
Against
Climate Change

...when our government
listens to the Citizen's
Assembly.

...by 2030.

...by 2050.

...never.

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...when pigs learn to fly.

...thanks to methane
from cow belches.

...because we all want to
drive everywhere.

...because we don't like
change. Behaviour change
that is. Not all this climate
change stuff the scientists
are on about!

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...instead of decreasing.

...because we haven't taken enough climate actions (yet!).

...when Trump and Pence are gone.

...when the USA finally ratifies the Paris Agreement.

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...when Doctor Who goes
back in time to the
Industrial Revolution and
warns us all.

...when world population
control is implemented.

...when everyone
becomes vegan.

...because land ice is
melting, duh!

Cards
Against
Climate Change

Cards

Climate Change

Cards
Against
Climate Change

...around Ireland at a rate of 3cm every decade since 1993; sucks for you if you're living in a low-lying coastal area!

...because the ocean is warming and expanding.

...fast. By 2100 they could be 30-100cm higher!

...because oceans are absorbing 90% of the heat from human emissions.

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...because this card says
so.

...because, eh, THINK OF
THE POLAR BEARS!!!

...because 97% of climate
experts agree that humans
are rapidly influencing the
global climate system.

...because we can see it
all around us.

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...and it's happening now
– Obama, 2015.

...globally. The planet's
average surface is a full
degree Celsius hotter since
the late 19th Century.

...even in Ireland!

...and already affecting
plants and animals,
including our food sources.
Up to half of all species
could be lost in your
lifetime.

Cards

Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...keeps Earth about 30°C
hotter than it otherwise
would be.

...is fabulous.

...is a hoax.

...is better than burning
fossil fuels.

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...is energy that will not run out.

...can be harnessed from the Sun (solar), wind, water (hydro) and the ground (geothermal).

...is where all the future jobs are!

...does not cause global warming or climate change.

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...helps to shield Earth
from the sun's harmful
ultraviolet rays.

...became thinner in parts
mainly due to manmade
chemicals called CFC's
(chlorofluorocarbons).

...was protected when
world leaders signed the
Montreal Protocol in 1987
banning CFC's in aerosol
sprays.

...is savage.

...is from Roscommon.

...is hilarious on twitter.

...is the President of
America.

...is dreamy.

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...used his Oscar
acceptance speech to
talk to the world about
climate change.

...raised \$20million to
help combat climate
change.

...is a climate sceptic.

...is responsible for
leading Ireland's action
on climate change.

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...at a rapid rate in the
last few decades.

...but I'm freezin'.

...so we can all turn off
the heating.

...and coral is being
bleached all over the
world.

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...and up to 50% of
species could be lost by
2100.

...are in agreement that
humans are causing
global climate change.

...are planning to move
to Mars.

...couldn't possibly be
wrong.

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...do not wear goggles
and a big white coat.

...and we'll all live
happily ever after in a
tropical climate.

...with warmer summers,
wetter winters and more
extreme weather, like
Hurricane #Ophelia.

...in the North and West
with more flooding.

Cards
Against
Climate Change

Cards

Climate Change

Cards
Against
Climate Change

...needs the sun so
couldn't be possible in
Ireland!

...can heat our home,
water for the shower and
even provide electricity.

...comes in two forms:
photovoltaic and
thermal.

...is a glorified gnome.

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...is the second cheapest form of renewable energy in Ireland, after on-shore wind farms.

...is not a problem.

...is a big issue in Ireland: we throw out a third of our food!

...is unnecessary.

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...costs every house up to
€1000 every year!

...is a sham.

...is a great example of
the polluter pays
principle.

...has rid Ireland's
countryside of plastic
bags.

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...raised €200 million in just ten years in Ireland.

...has encouraged more people to reuse shopping bags.

...has nudged people towards using cloth bags.

...must all be destroyed!

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

Cards
Against
Climate Change

...take million of years to form and seconds to burn.

...must stay in the ground to keep the planet from warming more than 2°C.

...are made from the remains of dead plants and animals that have been put under huge pressure and heat.

...are headlining Electric Picnic next year.
