

DIY City in a Box

Before you start creating your sustainable city or town, think about what is important to you and how you want to move around. Here are a few ideas to think about.

What mode of travel do you want to prioritise?

What source of energy will power your city?

The recent lockdown has considerably changed how we move on our streets and roads. What positive changes have you noticed that you would like to see remain in place?

How much green-space will you create? Will there be space to play?

What types of buildings are important? Where will the school go, or the sports hall?
