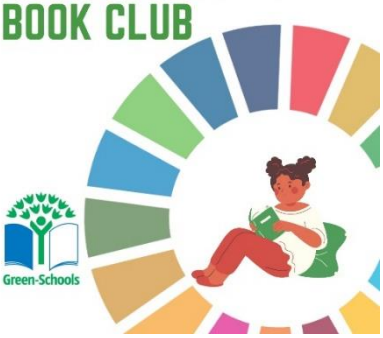
GLOBAL GOALS BOOK CLUB



In *The Lost Homework,* Sonny and his family are a part of the Irish Traveller community. In Ireland, Irish Travellers are an *indigenous minority but have a long history in Irish society. However, *Irish Travellers experience a high level of prejudice and exclusion. There are many groups of people around the world that expereience discrimination, and to help stop this it is important to fight discrimination that occurs in your own community. By doing so we can set an example that discrimination is not tolerated, and will create a domino effect that leads to change in the county, country, and the whole world!

What can you do to fight discrimination in your community and therefore support Global Goal 10: Reduced Inequalities? Is there a way you can get your whole community involved in the fight against discrimination?
