

SRTS School Survey - Parents Results

x school is taking part in the SRTS Programme for front of school upgrades which provide for walking, cycling and safer access to school. We want to enable students to travel to school safely and actively. To do this, we must improve the quality of the infrastructure on our streets and roads. Our Parent Survey results and support for the SRTS Programme is showcased below.

% of think road safety is a problem around the school

% support works at the front of school which improve student safety, putting pedestrians and cyclists first

% want new or improved footpaths

% want new or improved cyclepaths

% want safer crossing points

- % of students traveling to school each day by Park'n'Stride (driving some of the way to school and walking at least 5 minutes the rest of the way)
- % of students traveling to school each day by the school bus
- % of students traveling to school each day by public transport (bus, train or tram)
- % of students traveling to school each day by kick-scooter
- % of students traveling to school each day by bicycle
