

# Global Goals 7: Affordable and Clean Energy

## Instructions:

Affordable and Clean Energy is Global Goal 7. This goal aims to ensure access to affordable, reliable, sustainable and modern energy for all. Our current reliance on fossil fuels is unsustainable and harmful to the planet. Energy is the leading contributor to climate change accounting for 60% of total global greenhouse gas emissions.

---

## Discussions Questions Before:

- Where does our energy come from?
- What do we mean by renewable and non-renewable sources of energy?

Watch this [short video on the story of energy](#) to learn where our electricity comes from in Ireland and how we can cut down on our energy usage.

## Activity:

After watching the video try our [quiz](#) to see what you know about renewable energy.

---

## Discussion Questions After:

- What are fossil fuels?
  - How are they contributing to climate change?
  - What are some of the effects of climate change in Ireland.
  - How might other countries be impacted?
  - What can we do at home and in school to save energy?
-
