Instructions:

Watch the clip and give yourself the quiz (see questions on page 2) or do it as a group at home or online with a school group. If you do it as a group, choose someone to read out the questions and use page 3 to write in your answers (an adult may be needed to write answers for younger participants).

Only go to page 4 when you are ready to correct the completed quiz answer sheet on page 3.

Questions:

1. Was Chris brushing his teeth with the tap running, or not running, at the start of the video?
2. How much water do you need to brush your teeth?
3. Where does Chris say we have water?
4. Of all the water on the planet, can we use a lot of it or a tiny bit?
5. Where else can we save water? There are 5 suggestions, give a point for each one.
6. What did the ocean say to the shore?

Answer Sheet:

Q	Answer
Q 1.	
Q 2.	
Q 3.	
Q 4.	
Q 5.	A)
	B)
	C)
	D)
	E)
Q 6.	

Answers:

1. Running
2. Enough to get your toothbrush wet
3. Everywhere.....in oceans, in lakes, in streams and even when it rains
4. A tiny bit
5. A) Taking a short shower instead of a bath
B) Sweeping up dirt outside instead of using a hose
C) Fixing a dripping faucet/tap
D) Using a bucket to wash a car instead of a hose
E) Wash full loads of laundry instead of washing a few things at a time
