

Water Quiz Sheet – Lifecycle of a Frog

GREEN-SCHOOLS
STAY HOME - WATER

The following 4 minute video is from the Dr. Binocs show and looks at the lifecycle of a frog.

<https://www.youtube.com/watch?v=F3EIGMVU6SY>

Instructions:

Watch the clip (maybe a few times if very young) and give yourself the quiz (see questions on page 2) or do it as a group at home or online with a school group. Only go to page 4 when you are ready to correct the completed quiz answer sheet on page 3 (adults may be needed to help write the answers).

Questions:

1. What animal was messing with the frog eggs at the start of the video?
2. How many eggs would a female frog lay?
3. Where does a frog generally like to lay their eggs?
4. What can be different sizes, colours and shapes?
5. What coats/surrounds the egg and protects it?
6. What two things does the video say can destroy eggs?
7. What is the name of fertilised eggs in the jelly?
8. What is the baby frog that hatches out of the egg called?
9. What do baby frogs develop to help them breath underwater?
10. What does a froglet develop to help it outside of the water?

Answer Sheet:

Q No.	Answer
Q 1.	
Q 2.	
Q 3.	
Q 4.	
Q 5.	
Q 6.	
Q 7.	
Q 8.	
Q 9.	
Q 10.	

Answers:
