

# Cycling Infrastructure Survey

LESS TRAFFIC

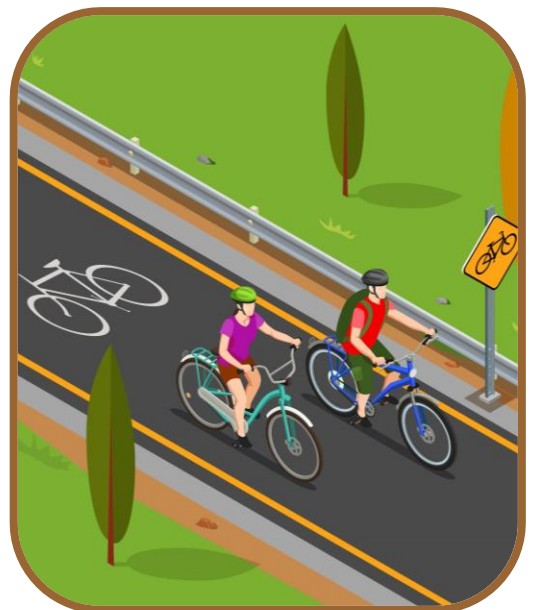

MORE WALKING  
& CYCLING

With the changes that have affected us all over the last few months, lots of families are enjoying their local streets to walk and cycle on with their children.

This time offers a unique opportunity to embrace our nation's new-found love of roaming in a pedestrian and cycle-friendly way.

Through this activity, you have the opportunity to look closely at your cycling route within 5kms and assess how cycle friendly it is. Improved infrastructure (footpaths, cycle lanes) in our towns and cities help us to make better choices when it comes to sustainable travel.

**SEND US IN YOUR SURVEY

TO WIN SOME GOODIES!**

# Cycling Infrastructure Survey

Name:

Townland/Village:

County:

1. What is the speed limit?

2. Are there cycle lanes?

**YES**

**NO**

Are the cycle lanes off-road or on-road?

**OFF-ROAD**

**ON-ROAD**

- a. Are they shared with pedestrians?
- b. Are the surfaces appropriate for cycling?
- c. Are they dished? If so, do cars cross your path?
- d. Do you feel adequately protected as a cyclist on the cycle lane?

- a. How many other cyclists pass you on your cycle?
- b. How many cars pass you on your cycle?
- c. Is the road wide enough for two cars to pass comfortably?
- d. Do you feel safe as a cyclist on this route? If not, why not?

- a. Are they separated from traffic with a physical barrier, i.e. bollards?
- b. Are there cars parked on them?
- c. Are they part of the bus lane?
- d. Do you feel adequately protected as a cyclist in the cycle lane?

- 3. Do you feel that the speed of traffic along your route is appropriate for cycling with your children?
- 4. What would you like the speed limit to be? Circle your choice  
30km/h      50km/hr      60km/hr
- 5. Write down any suggestions that you have to improve the safety of this route for cycling with your children?
