

Those Shoes

by Maribeth Boelts

Need vs Want Activity Sheet

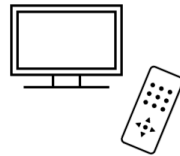

In the story Jeremy's Grandma talked about need vs want. Colour and cut out the need and want examples below. Then sort into two piles, need and want. Then move on to page 2.

Hint: Make sure to follow the directions on each page to create your needs vs wants shoe flap!

Need vs Want Activity Sheet

Attach the needs and wants in the spaces below, then move on to page 3.

A large black outline of a shoe is centered on the page. The shoe is oriented with the toe pointing to the left. The interior of the shoe is divided into two sections. The upper section, which would be the interior of the shoe's body, is labeled 'Needs' in green text. This section contains a 2x2 grid of four squares, each outlined with a green dotted line. The lower section, which would be the interior of the shoe's footbed, is labeled 'Wants' in green text. This section contains a single horizontal row of four squares, each outlined with a green dotted line. At the top of the shoe's interior, there is a horizontal line with the text 'Attach folded part of shoe 1 here' written above it.
