Walking for Water

A guide to hosting your own event

Join Green-Schools and schools across Ireland and Walk for Water this March. Raise awareness of water scarcity and show solidarity with children worldwide by walking six kilometers, carrying six litres of water.

Why Walk for Water?

Safe drinking water and basic sanitation should be accessible to everyone. Women and children in countries around the world walk on average six km a day to access water which is often unclean or simply not there due to drought or abstraction. By Walking for Water you can fundraise for water projects and raise awareness.

Register!

Email greenschools@antaisce.org and let us know you're holding an event.

1. Select participants (nobody under 10 for 6km walk and lots of supervisors!)

2. Pick your route - do a test walk beforehand!

3. Pick a date!
World Water Day is March 22nd

4. Consider fundraising: for your school or a charity of your choice

5. Promote your walk!
Use your Notice-Board, assemblies and local media

6. ENJOY!
