

## Safe or Unsafe?

Are you ready to hit the road cycling? Before you do read over these statements about cycling and determine if they are <u>safe</u> or <u>unsafe</u>.

- 1. When cycling with friends it is alright to ride side by side. Safe Unsafe
- 2. When I gain experience cycling, I can raise my saddle, so my feet go from being flat on the ground to on their toes.

|    | Trombellig fut on the ground to on their roes.         |                  |
|----|--|------------------|
|    | <mark>Safe</mark> Unsafe                               |                  |
| 3. | I have lots of experience cycling, so I do not need to | o wear a helmet. |
|    | Safe <mark>Unsafe</mark>                               |                  |
| 4. | I know the area I live in very well, so I do not need  |                  |
|    | to check traffic both way while I'm cycling.           | П                |
|    | Safe <mark>Unsafe</mark>                               | R                |

5. Even though I love listening to music, I do not wear my headphones while cycling so I can be aware of my surroundings.

Unsafe

- 6. I use hand signals to inform drivers where I am planning to go. Safe Unsafe
- 7. When I cycle, I always wear high-vis clothing so vehicles can easily see me.

Safe

Unsafe

8. If I notice broken parts on my bike (spokes, chain, light) I fix it right away!

Safe Unsafe

- 9. When I reach a red light even if I do not see any cars coming, I stop. Safe Unsafe
- 10. I travel in the same direction as traffic is going, and cars are on the right side of me.
