

ACTION OF THE DAY SPREAD THE WORD!

An Roinn Tithíochta,
Rialtais Áitiúil agus Oidhreachta
Department of Housing,
Local Government and Heritage

HOW THIS HELPS

Letting other people know what we have learnt is the first step in encouraging them to get involved as well! The more people who are trying to help wildlife the better! So don't keep it to yourself!

Where to start

Think about what you have learnt this week and what practical actions you have taken in your school or community. Who do you want to share it with? Other classes in your school? Your family? Your local community?

Top Tips

Don't be afraid to deliver your message in different ways to different people. Maybe you could do a presentation to a younger class at school or at assembly to reach the rest of your school. Using pictures and a short bit of text would be better for the parish newsletter!

OTHER ACTIVITIES TO TRY

Get creative with how you spread the word! If you are taking part in our "Draw Along Videos" today, you could use those as a springboard. Learn some facts about the animal you are drawing and turn it into a mini project!

Going digital

A great way to get your points across is by making a short video or even a podcast. You could do an interview explaining what you have learnt or showing off a new feature in your grounds.

Adding signage

Putting up some basic information about the features in your grounds is a great idea. It could be the names of trees or signs explaining that you are letting the grass grow for pollinators. You can find templates in English or Irish [here](#) (at the end of the page).

JUNIOR VIDEO

You will find our "Draw Along" videos on the event page. You can also checkout our video case study below to get some inspiration on how to present your work!
