WIN

A €200 One4All voucher, your winning photo professionally framed, €500 for your Green-Schools Committee and more!

Deadline:  
Friday 22<sup>nd</sup>  
November  
2024

## “You, Me and Our Future Seas”

### When taking photos think about:

- Our connection to the ocean, wherever we are – why we need to, and how we can, protect the ocean for the future
- The connection between the rivers and the sea
- The different ways we use the ocean space – such as for renewable energy, fishing, shipping and recreation
- The different activities that work well together at sea
- Plants and animals that live on the seashore and in the ocean
- People who use the sea (for sports, for their job, for inspiration)

We invite secondary school students to capture your connection with the ocean through our first ever Marine Spatial Planning Photography Competition.

Celebrate life by the sea, our river connections and the plant and animals that live there. Consider how our ocean is used now, and how it could be used in the future. Showcase your talent whether you're living on the coast, or inland. We want to see what the sea means to you!

Submit your entries through our online form at [www.tinyurl.com/marinecomp](http://www.tinyurl.com/marinecomp)
