

Where's Whaley? - The Ocean Wonders edition

Intructions:

1. Find the marine animals from the Ocean Wonders Series in the picture below! (Answers are given on the last page)

- Arctic Tern
- Elephant Seal
- Polar Bear
- Krill
- Cod

2. What other animals can you see in the picture? Use the word jumble on the right to give you clues! The animals are circled in the picture too.

Hint: A lot of us make up a reef in Australia.

Hint: I can have many legs!

Hint: I am attached to rocks and have many stinging cells, but I am not a jelly fish!

Hint: We are attached to rocks, have pores and can soak up water.
