

Regional Water Ambassadors

Magh Ene College

County Donegal

Alyssa, Cora, Ruby and Annie are the Water Ambassadors for Magh Ene College, Donegal. Supported by TY students and a group of 5th year girls, they led several impactful initiatives to raise awareness around water issues and sustainability.

One of their standout events was a Christmas Fast Fashion Pop-Up Stall, where they promoted the idea of “pre-loved fashion” to highlight the environmental cost of fast fashion, including its high water usage. The stall encouraged reusing, swapping and buying second-hand clothing. Proceeds from the event were donated to charity, reinforcing both the environmental and social values of the campaign.

They also organised a large-scale Walk for Water involving approximately 125 students and staff from 1st, 2nd and TY years. The walk was designed to build empathy for those facing challenges accessing clean water while reinforcing the importance of water conservation in daily life.
